Joseph P. Story, of New York, predicts that his provincial home town will have thirty million inhabitants in one hundred years from now, with skyscrapers one hundred stories high and a net work of underground streets. Maybe he is entirely correct, but it is only fair to our readers to add that he is a real estate man.

David Toomey is one of a dozen or more incurable patients at the Red Cross Lodge, Montreal, victims of the World War awaiting the last call of "taps." He is almost completely paralyzed, but has learned to use his toes to tune his radio set, from which he and the others derive much pleasure. His is a wonderful example of fortitude and courage in a situation which he knows to be without hope of betterment.

Among the heroic characters who carried white civilization into the New World, Fathers Brobeur and Lallement, martyred pioneer priests in Canada, hold a high place. Their canonization has been decided upon, according to a recent announcement. The story of their labors among the Huron Indians and their subsequent torture and murder by the ferocious heathen is a thrilling incident of colonial history. It is said that when Brobeur endured the heathen tortures of his captives, he said: "I am a priest of the Most High God, and I will not be moved by your threats."

REAL SEEKERS FOR TRUTH

President Coolidge, Secretary Hughes and others paid tribute to those indefatigable and patient seekers for truth, who were recently brought together in Washington for the annual convention of the American Association for the Advancement of Science.

It can hardly be denied that, with a disinterestedness not matched by any other class, the true scientist approaches every problem with an open mind, unfettered by prejudice. He has no ancient beliefs or superstitions to defend, no special cause to plead, no selfish interest to advance. He tries at all times to define, so far as is humanly possible, the dividing line between fact and theory, although he deals with both. New theories are given respectful examination and if they can be proven they are assigned their places in the categories of fact. And when the scientific world in general reaches an agreement in any matter, it is the best possible evidence of its truth.

In his address to the assembled scientists at Washington, Secretary of State Hughes most appropriately said: "We need your interest in knowledge for our own sake; your ceaseless search for truth; your willingness to discard every disproved theory, however honored by tradition, while you jealously conserve every gain of the past."

While the scientific investigator, as a rule, receives meager material rewards in return for his services to mankind, all progress, both material and intellectual, has been primarily due to his labors.

Without the leadership of inquisitive, investigating and indomitable minds, we should not have advanced far beyond the standards of the cave man.

THE CROSS-WORD CRAZE.

This is a great country for fads, and seldom does a month pass without a new one sweeping over it. Just about one out of a thousand of these fads are really worth while or beneficial. But now a beneficial one seems to have appeared in the form of the cross-word puzzle, which is claiming many devotees. Teachers and learned men all over the country are endorsing it, because it means that those who try to solve cross-word puzzles must resort to the dictionary, and thereby become more familiar with our language. They argue that nothing yet discovered serves to acquaint young people with English words and their meaning as quickly as cross-word puzzles. It makes them search for definitions and strange words, words entirely new to them, and these are being added to their vocabulary. Instead of passing quickly, as most fads do, this one appears to be gaining in popularity all the time. And that is doubtless because it is a sensible fad, and one that proves beneficial to both old and young.

RADIO IN CANADA.

With nine broadcasting stations stretching from the Atlantic toward the Pacific, the Canadian National Railways have developed a radio system not equalled by any other railroad in the world. One more station, at Vancouver, remains to be added to complete the chain, the present stations being at Montreal, Ottawa, Winnipeg, Regina, Saskatoon, Calgary, Edmonton, Toronto and Moncton.

Sixteen trains between Montreal and Vancouver and two trains between Montreal and Quebec are now equipped with receiving apparatus, while others will shortly be added. Besides broadcasting music and entertainment programs, lectures on Canadian progress and opportunities are given and the system is used to advantage in connection with official railroad business.

Important and desirable as this service to patrons of the railroad has become, it is perhaps of even greater benefit to the public. It has encouraged the installation of receiving sets in many farm homes of the Dominion and is a great boon, especially to the remote and sparsely settled sections. It is claimed that along the line of the railroad forest fires have been reduced nearly 50 per cent through a campaign of education in fire prevention.

From the above, it may be clearly seen that radio is coming to be something more than a fad or a means of entertainment. It is one of the most potent forces for social and material betterment that science has given to the world.

COLLEGE BOYS LOSE DAUBLE-HEADED TO TRIANGLES.

The St. Stanislaus Sharpshooters (135 pounds) and the Baby Rocks (125 pounds) dropped a double ball at the College Gym last Sunday afternoon to the "Triangle" teams of the above weights.

The 135's lost by the larger score, 30 to 0, while the lighter weights got the little end of a 13 to 8 score.

The visitors showed a good deal of class and team work; their passing and basket shooting was of a high order.

The work of Stevenson, Stewart, Lindsey and Wegener stood out above their mates for the Triangle, while Martin, Dennison and Jordy were the stars for the locals.

Court Comment.

Several big games are on the list and things will warm up in basket circles soon.

Don't Brigan remind you of Tony Schiro at guard position? Watch his face.

Buck Martin gives promise of some "Mejia" speed. We hope not to be disappointed, because a sharpshooter team would not be complete without that kind of speed artist.

Not one of the invincible S. S.'s of 1923 and '24 on the team, so it will be some time before any real dope can be worked out.

The Sharpshooter class numbers twenty candidates, and Bro. Peter is determined to weed out till he has a winning combination of ten shooters.

Some of the scrubs are very determined—they are practicing hard and are in hopes of showing such class that the V-Prexy can't overlook.

A happy smile decorated the mugs of the Triangle when they noted the absence of Mejia, Hymel & Co. for they lost to that company last season.

Both teams of the lighter class will show up better after another game or two.

Anxiety and nerves always score small in basketball.

Juniors of the fair sex were out and thoroughly enjoyed—the game.

What's the matter with the rooters? All got tonsillitis?

No Rooters' Club ever joined a sewing circle. Pep up, boys.

ANNOUNCING SALE OF "NEEF SALVE."

The Bay Chemical Company wishes to announce to its many friends that it has just placed its product, "Neef Salve," upon the market. "Neef Salve," possibly better known by many as Crawford's Salve, is now on sale at the three local drug stores.

HELP FOR OLD FOLKS

Old Age Should Be Happy—Not a Time of Sickness and Suffering.

Too many people begin to suffer at middle age with constant backache, urinary ills and rheumatic pains and aches. Weak kidneys are usually the cause, and if neglected, there is danger of hardened arteries, dropsy, gravel or Bright's disease. Help your weakened kidneys with a stimulant before they become a permanent firm hold. Use Doan's Pills. Thousands of old folks recommend Doan's.

Here is Bay St. Louis Proof: H. A. Perre, proprietor of bakery, 134 Main St., says: "My back ached and sometimes a sharp pain caught me and I was so bad I could hardly walk. If I stooped I could hardly straighten again. My kidneys acted too frequently and my rest was often disturbed at night. I began using Doan's Pills and they soon cured me of the attack."

Mr. Perre is only one of many Bay St. Louis people who have cured fully endorsed Doan's Pills. If your back aches, if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S PILLS—the same that Mr. Perre had.

WORK AND PLAY AT S. J. A.

Election of Staff Officers of Sea Sprite.

A meeting of the Senior Class was held Monday for the purpose of electing the staff officers of the Sea Sprite. The returns of the election were as follows:

Editor in Chief—Ellen Welsh.
First Assistant Editor—Dolly Roe.
Second Assistant Editor—Oleah Mauffray.

Business Manager—Adrienne Combe.
Assistant Business Manager—Alice Palanque.

Staff Artist—J. M. Green.
Staff Editor—Marie Favre.
Fun Editor—Dolores Vial.
Photograph Editor—Carmel Kuebel.

Typists—Amelia Scaffie and Irene Sellier.

Work has been started on the 1924-25 Sea Sprite, and the staff seems very enthusiastic over the coming annual.

Debate.

A debate was held Wednesday at the regular meeting of the Literary Debating Club. The subject was "Resolved: Capital punishment should be abolished." Both sides furnished such very good arguments that it was hard for the judges to decide which was the winner, so at the close of the debate it remained a tie.

The speakers were: Affirmative, Jennie Oleah and Ellen. Negative, Alice Palanque, Adrienne and Laura.

Basketball.

Once again we are working hard trying to perfect our team. A game is scheduled for next Thursday with Kilm (here). We hope to win and will fight with all our might.

Leisure.

Last Thursday Dr. Shipp addressed the student body at an interesting lecture. The pupils enjoyed his lecture, and we are eagerly anticipating another of his visits.

Visitor From Catholic University.

Last week the academy was honored by the visit of Rev. Lew McVay, of the Catholic University, Washington.

Father McVay is chairman of the committee on affiliated high schools and his visit was of great interest in leading us to appreciate the benefits of affiliation with the Catholic university, one of the chief aims of which is to compare our school with the other two, hundred and fifty Catholic high schools, thus enabling us to keep a little above, rather than below the standard.

Father McVay was charmed with the prettiness beauty of Bay St. Louis, quite a contrast to the snow-clad capital. The library, scientific apparatus and large, airy class rooms of the academy met with much favorable comment from our reverend visitor.

Belgium Correspondence.

Among the many letters which arrived at the Convent Monday were six addressed to the pupils of the academy. They were written in French and artistically decorated with colored drawings of American and Belgian flags.

The letters were profuse in expressing the thanks of the Belgian children to their "little American friends" for help given during the war. They were especially for the warm clothes and pretty toys sent at Christmas time. These letters made us feel happy that we had done our "bit" to relieve the suffering caused by the World War.

Library News.

We wish to extend our heartfelt thanks to Mrs. Brandao, the generous donor of ten Japanese-bound volumes. The unique binding and artistic illustrations make these works a thing of beauty as well as an invaluable addition to our rapidly growing library.

We are also happy to note the acquisition of thirteen volumes of O. Henry, one of Kipling, besides Haskin's "The American Government."

ATHENEES AWARDS DOUBLE PRIZES.

Mrs. Le Breton and Miss Merilh Each Win Medal and Cash.

New Orleans Times-Picayune.

Mrs. Dagmar Renshaw Le Breton and Miss Mathilde Merilh last night were awarded gold medals and cash prizes of \$25 each by the Athenees Louisianais, of the Groupe de l'Alliance Francaise, at the annual literary and artistic meeting in the rooms of the Louisiana Historical Society in the Cabildo.

As is customary, the Athenees awards only two prizes, a gold medal and a cash prize, for an essay on a chosen subject, but this year's papers on Pascal, the subject chosen, were of such high literary value that the committee of review arrived at an ex aequo decision between Mrs. Le Breton and Miss Merilh. Hence each was awarded a medal in addition to a cash prize.

The highly artistic musical evening was preceded by an address by Bussiere Rouen, president of the society, who gave a brief resume of the work during the past year. The address of the executive committee was read by Prof. Lionel Ducloux. Excerpts from the prize winning papers were read by A. Lafargue.

The hall was filled with the elite of the old French families of old New Orleans. Mr. Rouen, by way of introduction, stated that the evening gave promise of being a memorable one, especially in the way of awards. When the names of the recipients were called to the fore and presented to the guests amid applause.

Miss Merilh is the daughter of J. E. Merilh, well known in New Orleans and Bay St. Louis, and the foregoing will be read with general interest. The Echo joins the many friends of Miss Merilh in congratulations.
